(EXTERNAL EMAIL)

Hey Abbie,

Personally I see no issue with this, but I would have Paul take a second look first. Im not sure he is going to want that much detail in the email, but he has the final say.

Thanks,
miz

Ramiz,

I am drafting a response to MacGruder about their site plan. How does this sound?

Good morning Matt,

I'm glad you reached out this morning, as I had planned to contact you today as well. Last night, I was informed that the Board would prefer to wait until BFA's stormwater review comments are submitted before considering the site plan. To be respectful of your time and to avoid having you attend a meeting where the item would only be postponed, we decided not to place it on this week's agenda. Once those comments are received and addressed, we'll add your item to the next available Board of Aldermen agenda.

For that meeting, you are welcome to send me any exhibits or materials you would like the Board to see. Visuals are especially helpful for them to better understand the project you're bringing forward. You are welcome to send them in advance where I can then share them sooner to allow for thorough review.

As for the format: your item will appear under "Recommendations from Planning and Zoning." The agenda item will be read aloud, and then the floor will open for anyone present (or online) to speak and introduce the project. This will be followed by a Q&A with the Board. After discussion, the Board will vote to approve, deny, or postpone the request.

I will be in touch with the meeting date your site plan will be considered. Please let me know if you have any questions in the meantime.

City Hall will be closed September 1st, 2025 in Observance of Labor Day. Office hours will resume on Tuesday, September 2, 2025 at 8:00 a.m.

Thank you,

Abbie Ogborn, CMC/MRCC/CMO
